

Improving the conservation of the priority plants in the cross border area

Acronym	Conse-pp
Website	Improving the conservation of the priority plants in the cross border area (ipa-cbc-programme.eu) -Not implemented
Priority axis	Protection of Environment – Transportation
Specific Objective	Sustainable management of protected areas, ecosystems and biodiversity
Call	1st Call for Project Proposals
Start date	May 14, 2018
Lead Partner	Institute of Plant Breeding and Genetic Resources, Hellenic Agricultural Organization
Partners	Municipality of Thermi Municipality of Debarca Public Enterprise for Managing and Protection of the Multipurpose Area - JASEN University Ss. Cyril and Methodius – Faculty of Forestry in Skopje
Budget	1.189.618,29 €

The central idea of the project is the improvement of the conservation status of the prioritized plants in the cross border area, using;

- research activities for the prioritization and conservation of the endangered flora species,
- the development of conservation structures involving digital applications and infrastructures and
- awareness and education actions that will outspread the importance of these flora species and the flora biodiversity as a whole.

The expected outputs are:

- 1a. The setting of the targeted flora species in the cross border area
- 1b. The in situ collection of the species with joint botanical expeditions in both countries
- 1c. Documentation of the collected plants

- 1d. Setting of propagation protocols
- 1e. Established of the plants in protected nurseries and monitoring of their growth
- 1f. Research for the connection of these species to municipal urban green spots for the creation of a small network of pocket parks.
- 2a. Two GIS applications presenting the results of the previous documentations
- 2b. The development of a low altitude multipurpose nursery in Thermi, an infrastructure for biodiversity exhibition in Belchisko Swamp Area, a demonstrative urban botanic park in Kardia and the provision of equipment for fire protection in the National Park of Galicica Park.
- 3a. Two awareness data bases and apps that will be used for distant educational missions
- 3b. Four training seminars to targeted population of both countries (municipality staff and volunteers)
- 3c. The development of an awareness and monitoring centre in the Botanic Garden of Kroussia,
- 3d. Four college students' competitions (one scientific and one artistic) in both countries
- 3e. Actions for biodiversity education for school students in both countries.
